Gorazd Ilievski

UI/UX Designer and Multilingual Interpreter | Strength in Organization and Creative Thinking

Freelance

Translator/Interpreter

November 2024 - Present

Experience Empathy & User Advocacy:

resonate with diverse user groups, ensuring inclusivity and accessibility. Communication & Simplification: Skilled at distilling complex ideas into clear, actionable solutions—refined through interpreting

and applied to user journey mapping and microcopy design.

Thrived in dynamic environments, collaborating with cross-functional teams to iterate designs

Detail-focused approach refined through precision-driven interpreting, applied to crafting

Leveraged experience in PR brand management to craft user interfaces that adhere to strict

Skilled at translating complex client needs into intuitive designs, refined through PR experience

Applied storytelling expertise from PR copywriting to design user-centric narratives, ensuring

Data-driven designer with a background in PR audience analysis, skilled at translating user

Proven ability to orchestrate cross-functional workflows, ensuring seamless collaboration

Designed an intuitive handyman service platform tailored to German users, focusing on trust-

building elements, seamless service discovery, and localized UX to meet regional preferences

addressing cultural pain points like transparent pricing, service reliability, and secure payment

Created end-to-end wireframes and high-fidelity prototypes in Figma, streamlining the booking

flow and implementing a review system to enhance user confidence in service providers.

Optimized app architecture for clarity, reducing user friction in key tasks (e.g., service search,

real-time chat with handymen, and booking management) through iterative usability testing.

Collaborated in a team to design a corporate cybersecurity website during a hackathon,

prioritizing a sleek, professional aesthetic to reflect CDG's expertise and build client trust.

Led wireframing and prototyping in **Figma**, focusing on clean layouts, strategic use of security-

centric visuals (e.g., encryption icons, threat-mitigation animations), and intuitive navigation.

Streamlined complex cybersecurity service descriptions into digestible content blocks,

Worked closely with developers to align design feasibility with technical implementation,

Designed and prototyped a **financial literacy learning platform** during a time-constrained

hackathon, prioritizing intuitive navigation and user engagement for diverse audiences

Conducted user research to define 4 personas, mapped user journeys, and created a sitemap to

streamline platform architecture and ensure alignment with Sparkasse's educational goals.

Owned end-to-end design of the platform's core functionalities, including interactive learning

modules and a custom admin dashboard for content management, using Figma for wireframing

Collaborated with developers to prioritize features for MVP delivery, balancing user needs with

Delivered a cohesive, user-centered interface that emphasized accessibility and gamification

Sugarwish.com Marketplace Redesign | UI/UX Design Certification Project (Brainster) | June 2024

Collaborated in an understaffed team to overhaul the marketplace interface, focusing on

reducing excessive white space, streamlining navigation, and enhancing visual appeal to improve

Spearheaded end-to-end design processes: conducted competitive analysis, transcribed user

Redesigned the product page with a modern aesthetic, introducing a revamped user review

system to boost transparency and trust, while adding creative visual elements to differentiate

interviews via AI tools, and created low/high-fidelity prototypes in Figma to align with

convey authority while ensuring readability and accessibility compliance.

ensuring rapid delivery of a high-fidelity prototype under tight deadlines.
